I. AMENDMENTS

The amendments set forth below are made in response to the Non-Final Office Action initially mailed October 17, 1999, and supplemented with a fully substituted Non-Final Office Action on January 7, 2000. Applicants respectfully request that the Examiner enter the following amendments in the above-captioned application and reconsider the allowability of the application as amended under 37 C.F.R. § 1.111.

A. To the Specification

Applicants request entering the below amendments to the specification.

On page 1, in the paragraph entitled, "Cross-Reference to Related Applications," on the second line, please delete:

"herein incorporated by reference in its entirety".

This text was mistakenly presented in the statement of the chain of priority of the application under 35 U.S.C. § 120. The statement is surplusage as the specification of Application Number 08/113,329 is the identical specification to that of the instant application.

B. To the Claims

Applicants request that the Examiner enter the amendments to the claims set forth below. Claims 56, 58, 60, 65-67, 69, 72, 73, 75-79, 81, 82, 86, 88, 93, 96, 102, 104-107, 109, 112, 113, 116, 117, 122-124, 126-135, 139-143, 147, 149-153, 155, 158, 161, 162, 164-166, 171, and 175 are amended. For the PTO's convenience, claims that remain unchanged are included below in order to allow the Examiner to review all pending claims from this response in their numerical order.

56. (Four Times Amended) A method for receiving and processing data for use with an interactive video apparatus, said interactive video apparatus having a
